

ICEMM 2018

2018 International Conference on Engineering Materials and Metallurgy

Beijing, China / February 3-5, 2018

ICEMM 2018 welcomes submission of papers concerning any branch of the Engineering Materials and Metallurgy, and their applications in education, and other subjects. All the accepted papers will be published and indexed by **EI Compendex** and **Scopus**.

CALL FOR PAPER

Scanning tunneling microscopy (STM)	Optical Material
Atomic force microscopy (AFM)	Polymetric Materials
Nanomaterials, Nanoindentation	Semiconductors
Characterization and analysis of materials	Smart Materials
Physical and mechanical properties of materials	Carbon based Materials
Physical Metallurgy	High Strength Alloys
Ceramics and polymers	Magnetic Materials
Biocompatible implant materials	Materials Physics
Magnet and superconductivity	Nanotechnology
Functional materials, ceramic and composite	Iron and Steel making
Mechanical metallurgy, manufacture and texture	Alloy development

Submission Deadline: September 25, 2017
